

SILVER and WHITE version.

SWAROVSKI version.

Range of axial extractors with airflow rates of 85 m³/h, for connection to 100 mm diameter circular ducting.

Motor mounted on silent-elastic-blocks which absorb the vibrations and allow offering very low noise level. All the fans are manufactured from injection moulded plastic, fitted with automatic shutter and single phase 230V-50Hz, class B low consumption motor equipped with thermal overload protection. All the fans are class II insulation, IP45 rated and suitable to operate with air temperature up to 40°C.

Validated mark of approval
noise abatement society

**WATER
PROTECTED!**

LOW NOISE!

**ENERGY
EFFICIENT!**

Back draft shutter

To prevent air entry and limit heat leakage when the extractor is not operating. It opens due to the pressure of the air.

Silent-blocks

Motor mounted on "Silent-elastic-block" to prevent vibration and noise transmission.

SILENT-100 DESIGN

USUAL EXTRACTOR

Quiet operation

In usual extract fans the vibrations are transmitted to the surrounding areas while in SILENT extractor fans the vibrations are absorbed by the Silent Blocks.

SWAROVSKI versions: Elegant and innovative design.
Supplied with a front grille with a swarovski bar.

Range of axial extractors with airflow rates of 85 m³/h, high-performance, low consumption Brushless motors, for connection to 100 mm diameter circular ducting. Motor mounted on silent-elastic-blocks which absorb the vibrations and allow offering very low noise level. All the fans are manufactured from injection moulded plastic, fitted with automatic shutter and single phase 230V-50/60Hz, low consumption motor equipped with thermal overload protection. All the fans are class II insulation, IP45 rated and suitable to operate with air temperature up to 40°C.

With consumption of only 5W, the SILENT ECOWATT series extractors are especially recommended toilets, bathrooms and installations where the extractor will require long working hours resulting in a considerable reduction in energy costs.

SILENT-100 DESIGN 12VDC ECOWATT + CT-12/6

Kit made up of SILENT-100 DESIGN 12VDC ECOWATT fan, fitted with 12VDC brushless motor and designed for operation at SELV, and a transformer CT-12/6.

Back draft shutter

To prevent air entry and limit heat leakage when the extractor is not operating. It opens due to the pressure of the air.

Silent-blocks

Motor mounted on "Silent-elastic-block" to prevent vibration and noise transmission.

SILVER version.
 All versions available with Silver front cover.

Different styles with the colour bars.

Range of axial extractors with airflow rates up to 300 m³/h, for connection to 150-160 mm diameter circular ducting. Motor mounted on silent-elastic-blocks which absorb the vibrations and allow offering very low noise level (SILENT-300 DESIGN). All the fans are manufactured from injection moulded plastic, fitted with automatic shutter and single phase 230V-50Hz, class B low consumption motor equipped with thermal overload protection. All the fans are class II insulation, IP45 rated and suitable to operate with air temperature up to 40°C. Version SILENT-300 PLUS DESIGN for increase performance. Versions with electronic timer (CRZ) or adjustable hygrostat (CHZ).
