- Weather-proof (IP65)

Full control from smart device with Hue bridge

- Requires a Philips Hue bridge

Easy control and comfort

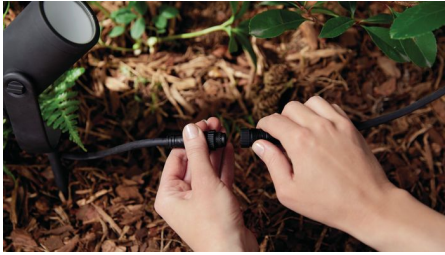

- Control it your way
- Smart control, home and away
- Set your lights to welcome you home

Limitless possibilities

- Paint your outdoors with 16 million colors
- Unwind with warm to cool white light
- Special light for special occasions

Highlights

Easy to install and extend

Brighten up dark paths, create highlights in your landscaping, or create a unique ambiance on the patio. You can do it yourself, using Hue spots or bollards. The products are based on low voltage, safe to use and easy to install. No more complexity to get lighting outdoors: go create and extend as you like.

High-quality

The products are made specifically for outdoor use. We are using the highest quality materials to ensure the best performance in the outdoor conditions as well as smart use of materials to optimize radio frequency.

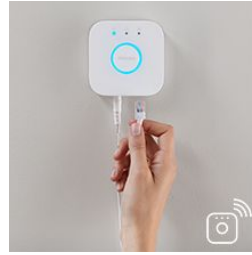

High light output

This Philips Hue light provides you with enough output to light up your garden comfortably. Use this Philips Hue light to help you light up your entrances, create more ambiance and bring your outdoors to the next level by setting the scene for your moment.

Weather-proof (IP65)

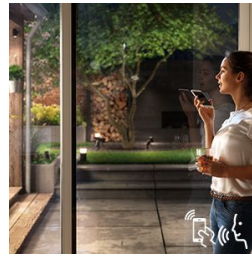

This Philips Hue outdoor fixture is specially designed for use in outdoor environments and has undergone rigorous tests to ensure its performance. The IP level is described by two figures: the first one refers to the protection level against dust, the second against water. This lamp is designed with IP65: this means that it is protected against low pressure jets of water. It is a higher level of protection than IP44 and commonly used when luminaires are close to the ground or require higher protection due to the certain outdoor conditions.

Requires a Philips Hue bridge

Connect your Philips Hue lights with the Bridge to control your lights from your smart phone or tablet via the Philips Hue app. Or control your Philips Hue lights with the Philips Hue dimmer indoor switch for on/off and dimming functionalities.

Control it your way

Connect your Philips Hue lights with the Bridge and start discovering the endless possibilities. Control your lights from your smartphone or tablet via the Philips Hue app, or add the indoor switches to your system to change your lights. Set timers, notifications, alarms, and more for the full Philips Hue experience. Philips Hue even works with Amazon Alexa, Apple HomeKit and the Google Assistant to allow you to control your lights with your voice.

Paint your outdoors

With Philips Hue outdoor lighting there's no limit to the magic you can add. Play with 16 million colors and all shades of white light to create the effect you want. Highlight objects, trees or pathways to make your space stand out. Use the Hue app to save your favorite light settings and recall them whenever you want with the tap of a finger.

Warm to cool white light

Extend your evenings with Philips Hue outdoor lighting. Set the right ambiance on your patio, balcony or porch and relax. From the warm white light of a summer sun, to the ice cool daylight of winter: you can enjoy any shade of white light to fit your mood throughout the year.

Light for special occasions

Holiday cheer starts here — with smart light! Use your Philips Hue lights to transform your home into a festive experience: bright reds and greens for Christmas, subtle pastels for spring, or even an eerie purple glow to create the most haunted house on the block on Halloween.

Smart control, home and away

Light up your outdoors and see what's going on outside. By connecting your outdoor lights with the Hue Bridge you can control them in any way you like. With our indoor remote control options such as the Philips Hue app or using your voice (Amazon Alexa, Apple HomeKit or Google Assistant) you can control your outdoor lights. You can set light schedules to mimic your presence. Control your outdoor lighting from the comfort of your home or from any other location.
